

4.1.1. Blend

A premium-grade, phosphate-free turf fertiliser designed for exceptional colour and growth year-round. Ideal for sports ovals, passive reserves, parks, and domestic lawns, it contains ammonium nitrate and sulphate of ammonia for sustained nitrogen release, enhancing plant health and vigour. High nitrogen, potassium, and calcium content promote strong cell membranes, root development, and stress tolerance.

Minimum Guaranteed Analysis W/W%

16.9	0	10	13.1	2.16	1.05	0.65	0.48

Application Calendar

(best applied during growing season)

AVAILABLE 20KG, BULK BAGS + BULK

Dual nitrogen

Contains ammonium nitrate and sulphate of ammonia, providing both immediate nitrogen availability and slow-release benefits for sustained growth.

High Potassium

Strengthens cell membranes, improving turf's tolerance to diseases, temperature extremes, and enhancing overall root development.

Calcium Boost

Enhances overall turf health and improves nutrient uptake, leading to better plant functioning.

Phosphate Free

Safe for use around rivers and waterways, particularly where eutrophication is a concern.

Application Rates

Contact your Bailey's Representative for further details.

KG/ACTUAL N/HA	KGS/100M ²	KG/HA
30kg	1.75kg per 100m ²	175kg/ha
40kg	2.35kg per 100m ²	235kg/ha
50kg	2.95kg per 100m ²	295kg/ha

Apply to dry area and irrigate after application. If no irrigation, apply when rainfall is evident.

Uses for 4.1.1.

- Ideal for cooler season application
- Ideal for high pH soils
- Suitable for all turf varieties
- Option to add Grosorb wetting agent
