

Moisture Mulch

Baileys Moisture Mulch, a dark brown, organic pine bark-based mulch, safeguards topsoil, minimizes water evaporation, and enhances soil fertility. Fully composted over 8 weeks, it's weed and disease-free, containing no artificial coloring. Enriched with manure, it improves soil structure and fertility, making it perfect for garden beds, pots, and planters.

Application Calendar

use all year round

Reduces Evaporation

Mulch reduces evaporation by creating a protective barrier over the soil, shielding it from direct sunlight and minimising moisture loss.

Suppresses Weeds

It not only improves the uniformity and appearance of garden areas instantly but also suppresses weeds and regulates soil temperatures, reducing erosion.

Saves Water

This Waterwise and Smart Approved product helps conserve water by reducing evaporation, making it ideal for garden beds, pots, and planters.

Improves Fertility

Composted with manure to minimize nitrogen draw down, it enhances soil fertility and structure as it naturally breaks down, promoting healthy plant growth.

Application Rates

Contact your Bailey's Representative for further details.

Apply a 20-50mm thick layer evenly over the desired area. Baileys Moisture Mulch will naturally break down over time, reapply as required to maintain cover and thickness.
