

NPK Blue

NPK is a high-analysis, broad-spectrum fertiliser, featuring a balanced blend of major plant nutrients and vital trace elements. Replenishing depleted soils, it fosters healthy, vigorous growth across a variety of plants. Its high potassium content enhances fruit and vegetable production while bolstering tolerance to frost, drought, pests, and diseases, promoting robust stem growth and overall plant resilience.

Minimum Guaranteed Analysis W/W%

N	P	K	S	Ca	Mg	Fe	Mn	Zn
13.2	1.9	10.8	18.7	1.15	0.97	0.20	0.16	0.16

Application Calendar

(best applied during growing season)

AVAILABLE 20KG, BULK BAGS + BULK

Sulphate of Potash based

Rich in potassium and sulfur, essential for promoting plant growth, flowering, and fruit development.

Compound Granule

Even nutrient distribution, reduced dust compared to blends, ease of application, and comprehensive plant nutrition.

Boosts Fruit & Veg

It replenishes depleted soils with essential nutrients, promoting healthy growth in various plants.

Versatile Applications

Suitable for all turfed areas including sports grounds, school ovals, and public parks.

Application Rates

Contact your Bailey's Representative for further details.

Vegetables and flower beds use 30-50 grams per square metre. Most vegetables require several light applications during the growing period.

Fruits and tropical plants use 20 grams per square metre. For established plants, use 50-100 grams per square metre.

Always water thoroughly after every application.
