

NPK Complete

A homogenous compound fertiliser manufactured in Western Australia and formulated to meet the complete nutritional needs of a vast range of horticultural crops. This 12-5-14 analysis is widely used, sulphate of potash based and fully soluble.

Minimum Guaranteed Analysis W/W%

N	P	K	S	Ca	Mg	B
12	5	14.27	12.55	2.03	1.21	0.02

Application Calendar

(best applied during growing season)

Compound Granule

All nutrients are combined into the one prill for uniform application. Available in a mini (1.5-2.5mm) and premium (2.5-5mm) grade.

Potassium Advantage

Potassium is available as sulphate of potash only and chloride free. The low salt index minimises the potential for fertiliser scorch.

Soluble Phosphorus

Phosphorus is in a soluble form, allowing ready uptake by plant roots and is essential for establishment and early development.

Essential Secondary Nutrients

Secondary nutrients emphasis is on Calcium, Sulphur, Magnesium, Zinc and Boron.

Application Rates

Contact your Bailey's Representative for further details.

KG/ACTUAL N/HA	KGS/100M ²	KG/HA
30kg	2.5kg per 100m ²	250kg/ha
40kg	3.34kg per 100m ²	334kg/ha
50kg	4.16kg per 100m ²	416kg/ha

Apply to dry area and irrigate after application. If no irrigation, apply when rainfall is evident. Consult your Baileys representative for further details.
