Baileys ENERGY[®] Chicken is a quality, pelletised organic fertiliser made from composted poultry manure. Use for soils preparation pre-plant or to provide a natural slow release nutrient source for domestic and horticultural use.

SOIL CONDITIONER

ORGANIC & NATURAL FERTILISER

COMPOSTED & PELLETISED

MOISTURE RETAINER

ADVANTAGES

The addition of organic matter to soils improves soil structure, water retention and nutrient holding capacity. A greater cation exchange capacity reduces leaching and increase plant available nutrients. Nutrients are in an organic form, which is slower releasing and supports soil biological life.

- Improves soil structure & fertility
- Provides a natural and balance source of NPK and trace elements
- Retains moisture and nutrients at root zone
- Weed Free
- Fully pelletised and broadcasts easily
- NASAA Certified Organic

AVAILABLE 25KG BAGS, BULKA BAGS & BULK

Application Rates

Kgs actual N/Ha	Kgs/100m ²	Kgs/Ha
13.5kg	3kg per 100 m ²	300kg/ha
18kg	3.7kg per 100 m ²	370kg/ha
22.5kg	4.4kg per 100 m ²	440kg/ha

Apply to dry area and irrigate after application. If no irrigation, apply when rainfall is evident. Consult your Baileys representative for further details.

APPLICATION

- Apply to edible crops as a pre plant or top dress throughout the growing season.
- Apply to Turf as a starter fertiliser for new or roll on turf. As a top dress where organic matter levels are deficient.
- Water in after application as the product has a strong odour or apply through winter when rain is present.
- Can be applied year round.
